ABODEHMS is the only Housing Management System designed with the unique needs of Seventh-day Adventist institutions in mind. Using the latest technology, Abode simplifies residence life management including: room assignment, curfew monitoring, worship tracking, leave handling, student communications, and more.

Student and Residency Information

Lookup of imported student data • Manual, assisted, or self room assignment • Online room application • Access to medical and parental records • Easy assignment of curfews and worship requirements

Mobile Devices and Scanners

Paperless nightly room check with mobile devices • Easy attendance-tracking with ID card scanners for barcode, RFID, or magnetic stripe • Mobile room inspection entry

Online Student Portal

Enables: Applying for rooms • Choosing meal plans • Viewing worship, curfew, and judicial history • Online leave requests • Contact information updates • Viewing leave history, communications, and more

Extensive Reporting

Rosters • Curfew reports • Worship attendance reports • Room availability • Mailing labels • Birthday lists • Leave summary and details • Many more: 40-plus included reports • Custom reports available

Communications Center

Student messaging via SMS/Text, email, or online student portal • Tracking and sending of messages from one convenient location • Powerful mail merge and batch message features

Curfew, Leave, and Worship Tracking

Automatic nightly reconciliation by tracking room checks, door activity, and leaves • Multiple worship- and attendance-tracking options • Handheld scanners to simplify data entry • Extensive reporting with export to Excel or PDF

Data Integration

Custom file exchange, database linkage, or RESTful API services to exchange data with campus records • Authentication integration • Student image sharing

Support and Customizations

Telephone, email, and online support system • Annual releases included in subscription • Customization available to meet unique needs • Knowledgeable and friendly support staff
